

The

How To Put On A Cake Walk.

Print up this file and if you have access to a laminator, laminate the numbers. Ask loads of people to bake cakes. Display them nicely to get people enthused. Organize music to play (live is amazing, a boom box is fine). You can either put the numbers on the floor or put them on 15 chairs, either way arrange them in a circle. Cut up and put as many of the small numbers in a jar as there are cakes. People walk the circle, and when the music stops, either everyone sits down on a numbered chair or you stand on your number. The prize pulling person pulls a number out of a jar. The person sitting on that numbered chair or standing on that number gets to pick their cake. Cut up a bunch of hold tickets to ensure that people stay at your fair and don't have to walk around with cakes.
